

# ***Environmental Policy***

**We are committed to complying with all applicable legislation and regulations that affect our activities including:**

- **Continually identifying, evaluating and controlling the environmental impact associated with the products we sell.**
- **Reducing the company's use of energy and other resources by increasing efficiency and by reducing all forms of water, air and waste pollution from its premises.**
- **Providing training and information for all its employees to ensure they fully integrate this policy into their responsibilities in the workplace.**
- **Making this policy available to members of the public on request.**
